

# DHANUNJAI RAGHU RAM

📍 Khammam, Telangana, India

✉️ dhanunjay1611@gmail.com ☎️ +91 9177952460 LinkedIn — GitHub

## PROFILE SUMMARY

Computer Science undergraduate with strong skills in the **MERN stack** (MongoDB, Express.js, React.js, Node.js) and **Java**. Experienced in developing scalable web applications, RESTful APIs, and interactive user interfaces. Passionate about problem-solving, writing clean and modular code, and continuously learning new technologies.

## EDUCATION

### KL University

B.Tech in Computer Science and Engineering — **CGPA: 9.4/10**

Vijayawada

Jul 2022 – Apr 2026

### Sri Chaitanya Junior College

Intermediate (MPC) — **943/1000**

Khammam

Jul 2020 – Apr 2022

## TECHNICAL SKILLS

- **Programming Languages:** Java (OOPs, DSA), C
- **Web Technologies:** HTML, CSS, JavaScript, Node.js, Express.js, JSP, Servlets, Tailwind CSS
- **Frameworks:** React.js
- **Databases:** MySQL, MongoDB
- **Version Control:** Git, GitHub
- **Soft Skills:** Communication, Team Collaboration, Problem Solving, Adaptability

## PROJECTS

### Online Grocery Delivery App | MERN Stack, Stripe, JWT — Live Demo

- Engineered a full-stack grocery delivery platform with dashboards for customers, admins, and delivery partners, ensuring a seamless user experience.
- Implemented secure authentication using JWT and session management, and integrated Stripe for real-time transactions.
- Optimized MongoDB queries, reducing response time by 40% and improving API performance.
- Developed an admin dashboard for inventory management, order tracking, and coupon control.
- Deployed the application on Vercel, ensuring high availability and production-ready performance.

### Real-Time Chat Application | MERN Stack, Socket.io, JWT — Live Demo

- Built a scalable real-time chat platform supporting instant messaging, online/offline status, and media sharing.
- Implemented WebSocket communication using Socket.io and secure JWT authentication for protected sessions.
- Developed a responsive UI using React and Tailwind CSS, compatible across desktop and mobile devices.
- Ensured message persistence using MongoDB and deployed the full-stack application on Vercel/Render for stability.
- Integrated typing indicators, read receipts, and notifications to enhance user interaction and engagement.
- Followed modular and reusable coding principles, enabling easy addition of new features such as group chats and file sharing.

## CERTIFICATIONS

- **SQL Certification** — Demonstrated proficiency in database concepts, SQL queries, data manipulation, and relational database management. Gained hands-on experience in designing, querying, and optimizing databases for real-world applications.

## DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
